JIS L 1902:2008

Patent Zunli Hook

Zunli hook patented and unique. Welded glide hook installed in pre-pinned blocks to make curtain loading easy and very fast.

Zunli hooks are made of the same polypropylene material as the curtains. This ensures that the whole product is fully recyclable.

Double-layer Fabric

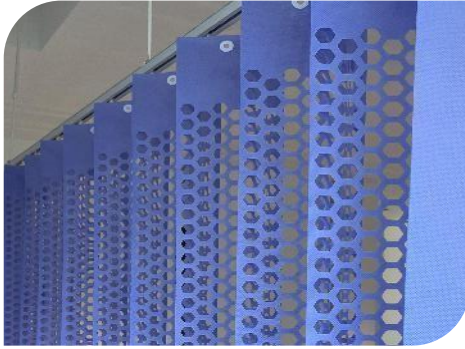

Double-layer fabric of first page which can effectively prevent the disposable curtains from becoming warped, wrinkled, and worn, thereby increasing the durability and aesthetics of the curtain.

Mesh Disposable Curtains

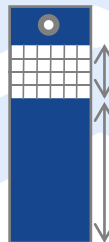

Punching Mesh Disposable Curtains

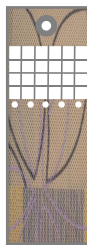

- 100% Polypropylene
- 100% Recyclable
- Simple and elegant
- The punched mesh part is available in 0.5m and 0.6m

Sewing Mesh Disposable Curtains

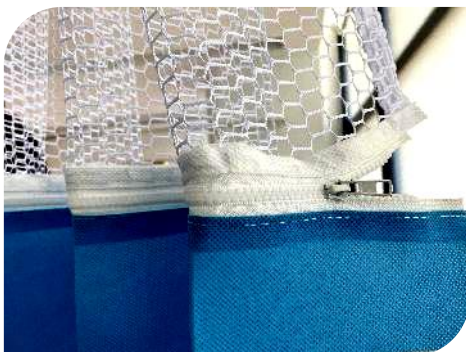

- Light-permeable and breathable
- Adjustable length
- Solid color & printing are available
- Beautiful and practical

Snap-on Mesh Disposable Curtains

- Easy to install with snap buttons
- Environmental friendly
- Light-permeable
- Different prints are available

Zipper Mesh Disposable Curtains

- Long service life
- Easy to install without tools
- Changing takes less than 60 seconds
- Save time and money

Shower Disposable Curtains

- **100% Polypropylene**
- **100% Recyclable**
- **120gsm thickness**
- **Anti-bacterial**
- **Anti-mildew**
- **Water Resistant**
- **Fire Retardant**

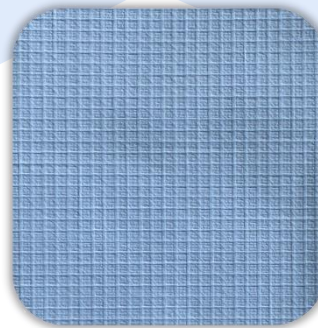

Features:

Zunli 100% polypropylene non-woven shower curtains are a smart solution for healthcare facilities seeking a disposable, hygienic, and cost-effective option.

This waterproof and lightweight material prevents the spread of bacteria and viruses, ensuring optimal patient safety and infection control.

PVC Medical Curtains

- **100% polyester PVC laminated fabric**
- **Durable and flexible**
- **Antibacterial test passed**
- **Flame retardant to BS5867 Part 2 Type C**
- **Easy to clean**

Features:

PVC is a new material that is fire resistant from the factory. A cost-effective and sustainable alternative to disposable cubicle curtains.

Anti-bacteria, anti-mildew and a wipe-clean surface that prevents the spread of infection in hospital wards.
